

## Workshop at Loyola KAUSHAL Kendra: Getting Hands-on Experience in Rotoscoping

People who have admired the creative works of the trilogy Lord of the Rings may not be aware that Rotoscope was heavily used in the movie. And why not introduce it to the students of animation? DDU KAUSHAL Kendra, Loyola College organised a workshop on Rotoscopy on 10th March 2021. Mr. Mahendra Natha Reddy, Supervisor, Rotoscopy at IGENE Media was the resource person.

Students of 19 & 20PAN, 3D animation department understood the evolution and uses of Rotoscope, thanks to the workshop. The demo reels of the movie they have worked for provided a practical exposure on the topic. The workshop provided an hands on experience for the students, especially from a studio working in Rotoscope was a great opportunity for the students.
