

Workshop on Stories for Animation: An Inspiring Training Session Conducted by Dr. Ezhil Vendan

The workshop on Stories for Animation held on 31st March, 2022, conducted by Dr. Ezhil Vendan, Director, Emagic Animation Company, was an inspiring one. The resource person of the workshop organized by DDU KAUSHAL Kendra, Loyola College shared his personal experiences in the field of animation. It was inspiring.

The students were also given an activity by the trainer to tell their story to all the participants of the workshop. Many of them participated and volunteered actively. The critical inputs, suggestions and ideas to improve their stories were worthwhile.

A master is always a master. Mr.Ezhil Vendan did the same. The trainer chose one of the students' stories and taught us to make a story board. The students drew the story board along with him, as he explained how to construct frames, angles and expressions.
