

## **Triumph in your chosen career, students urged**

A movie will be cherished only when it is jelled up with its mixture in proper proportion. Maanagaram is one such movie which has appropriate blend of story, screenplay, music and direction.

A film appreciation session was arranged for the students of Film making, Film editing and Cinematography of LIVE Loyola on 31<sup>st</sup> March 2017. The crew members Mr. Lokesh Kanagaraj – the Director and writer, Mr. Javed Riaz –music director, Mr. Selvakumar – Cinematographer, Mr. Philomin Raj – editor added value to the session.

Since the Forum was highly interactive, queries related to the production of the movie were rapid from the audience, for which the speakers responded fittingly. The session was reassuring as the team shared their journey of success which was really an example of stepping stone. The team also urged the students to choose their path and triumph in their career.
