

## What is news?

Mr. Pragadeeswaran who worked in various media conducted a session on “how to analyse the news” for the Visual Communication students of LIVE on 4<sup>th</sup> November 2016.

He shared the videos telecast in different news channels on the same issues and led the discussion towards finding out what news really is. Difference in headlines of the same news and varying perspectives of papers, channels and journalists & news were discussed.

Students actively participated in the discussion. They agreed, bounced between the walls of ethics, sensationalism and facts. There was much food for thought.
