I would say with those who say God is Love, God is Love. But deep down in me I used to say that though God may be Love, God is Truth-above all. If it is possible for the human tongue to give the fullest description of God, I have come to the conclusion that for myself, God is Truth. But two years ago I went a step further and said that Truth is God... I never found a double meaning in connection with Truth and even atheists had not demurred to the necessity or power of Truth. But in their passion for discovering Truth the atheists have not hesitated to deny the very existence of God from their own point of view rightly. And it was because of this reasoning that I saw that rather than say that God is Truth, I should say that Truth is God.
